

CB-EC4: Systems Biology

Person in charge and Representative	Wegner
Contact person	BIOMEDAS Office
Semester	1-2
Topic cluster	Computational Biology
Duration/Credit	2 weeks, if places are available
Time	February. The exact date incl. time will be announced separately
Place	Online. Dial-in data are sent separately
Prerequisite for the lecture/course	Lecture Systems Biology
Aim of the lecture/course	Learn how to combine experimental (GC-MS, LC-MS) and computational (MFA) methods to profile metabolic fluxes in cancer cells.
