

CB-EL3: Applied Bioinformatics

Person in charge and Representative	Wegner
Contact person	BIOMEDAS Office
Semester	1-2
Topic cluster	Computational Biology
Duration/Credit	winter semester lecture 7x 2h tutorial 7x 2h
Time	The exact date incl. time will be announced separately
Place	Online. Dial-in data are sent separately
Prerequisite for the lecture/course	Python
Aim of the lecture/course	Learn how to apply basic machine learning algorithms to analyze biomedical data.
